OUR HISTORY

'FROM PORT TO YOUR DOOR' PHILOSOPHY

Our philosophy 'from port to your door' makes us offer a personalised service of frozen fish and seafood according to the needs of our clients.

Our value chain gives us the possibility to offer different specific services for each client. This has allowed us to work with hotels, restaurants, and cafes (Foodservice), wholesale, distributors, groups, and to have an adapted service to 'retail' in big stores. And we always offer the best technical and commercial advises to our clients.

marbamar.com

1953

Carlos Martínez starts the activity of buying and selling frozen fish.

1965

Marbamar was founded by the Martínez-Lledó family focused on wholesale of fish and seafood from Santa Pola, Las Palmas, and Morocco.

1985-90

Thanks to a heavy investment, we were able to reach a capacity of more than 2.500 tonnes in ship warehouse.

2001

The second generation of the Martínez family opened new facilities and started the cold storage rental and Customs Warehouse.

2004

We secured our growth with the effort of our staff, technological innovation, and logistics.

2012

The third generation of the Martínez family is the one who assures the mission to lead the change to digitalisation and internationalisation.

2015-17

We expanded the distribution of frozen fish and seafood with the new branches in Las Palmas and Cádiz.

2018

We consolidated the process of internationalisation with the opening of our factory in Mauritania.

FROZEN FISH AND SEAFOOD IMPORT FROM 1953

We have access to the highest quality of fish and seafood due to the experience of several generations working in the same activity.

Throughout 68 years, we have created business alliances and trusting relationships with the best fishing grounds all over the world.

Our working teams consist of real experts in selection with a knowledge in depth of the product and the market at source.

OURS CUSTOMERS:

Industrialists

We work with large food companies guaranteeing the control, tracking, and production of our frozen fish and seafood.

Wholesale

Frozen fish and seafood is continuously and stable service guarantee by our quality control along 'from the port to your door'.

Traders

We adapt our product sizes sales to the market needs of our clients.

Fish markets

We guarantee quality and control from port to your door to bring frozen fish and seafood to our clients in the best condition.

Retail department stores

Service adapted to large department stores with the commitment of delivering and quality in all our products.

Hotels, restaurants, and cafes (FoodService)

We provide an adapted service to hotels, restaurants, and cafes (FoodService) according to requirements at any time.

Groups

We have specific products for any of the groups, always offering the best quality.

VALUE CHAIN

PROFESSIONALISM

As we know how much you appreciate stability in offering and type of product, we are in every source so we can locate and bring any species in a stable and continuous way always respecting biological standstill

PROCESS

This preparing and packaging process allows us to adapt the form (slice, fillet, piece, IQF, etc.) to the needs of our clients, restaurants, hotels, catering, distributing companies, department stores, fish markets, etc.

FACILITIES

More than 30.000 m3 of facilities in Santa Pola and Cádiz where we maintain the cold chain and the original quality of the product.

At present, we place our facilities at your disposal with our cold storage rental service.

DIGITALIZATION

In a 'traditional' way is the answer to the changes of the new era where participation of human and technical personnel, together with technology, transforms us in the highly qualified company that the global market demands.

SALE AND DISTRIBUTION

Our commercial advisors are highly qualified in products and customer experience, knowing in depth the needs produced by quality, format, continuity, and always committed to the traditional values of the company.

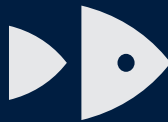

QUALITY GUARANTEED

Our facilities at source and target guarantee the best quality in our frozen fish and seafood in compliance with the current regulations.

'From the port to your door' is our best traceability.
